E20AX/P Chang Island AS-125 –story

Here's an **interesting report** by Champ, E21EIC on the **E20AX/P** Chang Island DXpedition which took place at the end of last year.

PZ5G Papegaaien Isl SA-092 –update February 22

Finally we found a good boat for the DXpedition to rare SA-092. I will bring 3 persons with me to Papegaaien island who will support the solo operator. Please consider a donation for my expensive DXpedition to a very rare IOTA in South America. Thank you for your support and see you from the island tomorrow!

KH0/KC0W –now QRT

Last month I moved into a condo and have gone QRT from all amateur radio activity. I gave all of my telescoping aluminum antennas & coax away to local fisherman so they construct HF antennas for their boats. The elements of my Yagi have now been repurposed as a line for drying clothes under the sun. After 65,000+ QSOs over the past 2.5 years it's time to call it QUIT. I DO miss operating CW. FT8 & SSB not so much so. Thanks for all of the QSOs over the past 2+ years. Hope to QSO many of you again from Saipan someday in the future after I find that ever allusive QTH.

Amateur Radio ban Ukraine

Ukraine has declared a state of emergency in all of Ukraine except for eastern Donetsk and Luhansk oblasts starting on Feb. 24.

The parliament approved the decree introduced by President Volodymyr Zelensky on Feb. 23, as the threat of Russia's all-out invasion of Ukraine continues to grow.

Donetsk and Luhansk oblasts already have a special legal status because of Russia's ongoing occupation since 2014.

Restrictions introduced by the state of emergency are due to last 30 days and will vary depending on the region.

The state of emergency allows the authorities to temporarily limit the public's constitutional rights.

The decree green-lights the following measures:

increased public order protection and security;

checks of identification documents of civilians and frisking if necessary;

ban on protests;

temporary or permanent evacuation of people from dangerous areas and providing them with accommodation;

ban on relocation of conscripts and reservists without notice;

ban on producing and spreading information that may "destabilize the situation";

ban on amateur radio transmitting devices.

Other measures that may be implemented "if necessary" include:

a curfew;

a special regime of entry and exit;

ban on mass events;

"special rules" for spreading information online.

The 2022 Honour Roll and Annual Listings

Covid-19 travel restrictions have resulted over the past year in a reduced number of DXpeditions.

The Honor Roll and Annual Listing with a total of 1558 entries show a decrease of 109 or 6.5% over the same listings in 2021. Some 241 record-holders now have scores of 1000 or more IOTA groups, a decrease of 6.6% on last year, and 570 or a decrease of 3.4% with scores of at least 750 groups, the number required for the IOTA Plaque of Excellence. Scores at the top continue to close with 67 record-holders breaking through the 1100 mark and 20 of them within 10 of the top score. Congratulations to leader 9A2AA on 1132 groups out of a possible 1136 that have seen activity, to I2YDX and I1JQJ who follow close behind and indeed to all who have joined the IOTA family or updated in the last year. Following a brief break Checkpoints have started processing applications again.
